i started writing the meaning book in 2015 without knowing i was writing it it was just something i enjoyed doing the words came out i was just there it also helped me through a difficult time in my life a dark time emotionally getting over a break up with a woman i cared about deeply while writing it a lighter side of life started revealing itself to me through writing it and going through all of those deeper and darker feelings i started realizing that the dark and the light are quite similar and everything else in between those two even more so these are the cycles of life we are meant to experience the so called good and bad things in life or light and dark if you will every time you are experiencing something you perceive negative someone out there is experiencing something more positive and a third person is experiencing something entirely neutral maybe their life is standing still at times the roles are reversed life is not meant to be only either or there is everything to life this book is about finding meaning in all of those moments death life loss gains the whole spectrum it s about seeing those things as they are not as we want them to be it s about accepting where you are accepting death and life the same because in many ways they are so intimately connected it s hard to tell the difference my hope for this book

is that it will show that there is light in the darkness as well as darkness in light i hope it will help you accept life as it is but a word of warning it will not save you only you have the power to save yourself this book will guide you in the right direction
