a creative and comprehensive exploration of the institutional forces undermining the management of environments critical to public health for almost two decades the citizens of western mexico have called for a cleanup of the santiago river a water source so polluted it emanates an overwhelming acidic stench toxic clouds of foam lift off the river in a strong wind in sewer of progress cindy mcculligh examines why industrial dumping continues in the santiago despite the corporate embrace of social responsibility and regulatory frameworks intended to mitigate environmental damage the fault she finds lies in a disingenuous discourse of progress and development that privileges capitalist growth over the health and well being of ecosystems rooted in research on institutional behavior and corporate business practices sewer of progress exposes a type of regulatory greenwashing that allows authorities to deflect accusations of environmental dumping while regulated dumping continues in an environment of legal certainty for transnational corporations this type of simulation allows companies to take advantage of double standards in environmental regulations while presenting themselves as socially responsible and green global actors through this inversion the santiago and other rivers in mexico have become sewers for urban and industrial waste institutionalized corruption a concept mcculligh introduces in the book is the main culprit a system that permits and normalizes environmental degradation specifically in the creation and enforcement of a regulatory framework for wastewater discharge that prioritizes private interests over the common good through a research paradigm based in institutional ethnography and political ecology sewer of progress provides a critical in depth look at the power relations subverting the role of the state in environmental regulation and the maintenance of public health

in this fascinating and challenging work the author analyses the way water for drinking is produced distributed owned acquired and consumed in contrasting ways in different settings from the taken for granted all purpose water flowing out of taps in advanced economies to extreme inequalities of access to water of variable qualities drinking water tells its own interesting story but also reflects some of the centrally important characteristics of the state and economies of the different countries from sparkling mineral water in germany to drinking water garages in taiwan from water tankers in mexico city to street vendors in delhi markets comparisons are made to stretch our understanding of what we mean by an economy quality and property rights of water in addition the study of socio economics of drinking water provides a route into understanding interactions between polity economy and nature one of the major themes of the book is to analyse the sociogenic nature of sustainability crises of economies of water in their environmental settings epidemics droughts pollution land subsidences and floods overall it develops an economic sociology neo polanyian approach in a comparative and historical exploration of water for domestic consumption

luis barragan was one of the most extraordinary figures in international architecture between the 1930s and the 1970s his work offers a unique interpretation of international modern architecture from the perspective of the mexican landscape
