the public outcry for a return to moral education in our schools has raised more dust than it s dispelled building upon his provocative ideas in on becoming responsible michael pritchard clears the air with a sensible plan for promoting our children s moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such an environment children learn to work together to listen to one another to build on one another s ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and

timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal use of actual classroom dialogues to illustrate children s remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truthtelling lying making and keeping promises obedience character and responsibility he also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers the result is a rich and insightful work that provides real hope for the future of our children and their moral education

in this book i aim to take a fresh look from a sociological perspective at both earlier assumptions and current issues about death and dying specifically the major source of my theoretical perspective is symbolic interactionism by examining the thoughts feelings and actions of the dying and those affected by death from this perspective we can gain greater insight into the subtle relationships these actors have with each other and more over with death page v

narrative psychology proceeds from the assumption that understanding human experience and behavior necessarily involves reviewing the relevant historical and cultural contexts in which they occur this book is an argument for and example of narrative psychology it contains an autobiographical essay by theodore sarbin a duography by mary and kenneth gergen and a teleography by george howard and nine other life stories by people whose scholarship has reflected a contextualist or narrative root metaphor psychologists will find these essays useful to the interpretation of contemporary theories and research focused on narrative scripts and discourse processing this anthology will also be interesting to students of autobiographical memory and biography because of the conscious reflexivity expressed in the essays and comments by each of the contributors on the effects of writing one s life story
