a survey of traffic accident literature reveals a marked lack of agreement on what constitutes a valid measure of driving safety as well as an apparent lack of strong support for a single coherent theoretical model to explain or account for the occurrence of driving collisions this discussion paper suggests that there is a tendency to confuse the interrelated but distinctly different concepts of legal and safe driving the paper reviews the driver education process and the characteristics of the driver s license examination in relation to acquisition and retention of safe driving skills the paper then proposes a definition of safe driving contrasts this with legal driving and suggests a cognitive approach to collision prevention training and driver licensing based on the teaching of safety protocols
