breve fra aldous huxley 1894 1963 fra årene 1899 1963

a collection of critical essays on huxley his satires and fiction works with a chronology of events in the author s life

the author of four truly important novels the recognitions in 1955 j r in 1975 carpenter s gothic in 1985 and a frolic of his own in 1995 william gaddis is considered by many literary scholars to be one of the most outstanding novelists of the twentieth century to be spoken of in the same breath as james joyce robert musil and thomas pynchon hints and guesses william gaddis s fiction of longing is the first scholarly work to discuss all four gaddis novels while not dismissing the inclination of many scholars to view gaddis s fiction as postmodern christopher knight moves critical response in another direction toward a discussion of gaddis s significance as a satirist and social critic knight investigates gaddis s predominant thematic interests including those of contemporary aesthetics flemish painting forgery corporate america third world politics and the u s legal system what knight finds is an author not only acutely sensitive to post war social realities but also one whose critique carries with it an implied utopian dimension

an in depth analysis of aldous huxley his writings and the historical time period in which they were written

aldous huxley author of eleven novels remains one of the towering figures of the twentieth century his work resistant to passing fads in literature this critical biography explores huxley s lifelong quest for self actualization by intertwining the events of his life and details of the creative period that produced each book considering huxley s letters essays and interviews in its examination of the thematic content of each novel the text finds a man striving for the intellectual growth that would yield a sound philosophical and spiritual view of life one he infused into his work

welcome to the essential novelists book series were we present to you the best works of remarkable authors for this book the literary critic august nemo has chosen the two most important and meaningful novels of aldous huxley which are crome yellow and antic hay aldous huxley was an english writer and philosopher widely acknowledged as one of the foremost intellectuals of his time he was nominated for

the nobel prize in literature nine times and was elected companion of literature by the royal society of literature in 1962 novels selected for this book crome yellow antic hay this is one of many books in the series essential novelists if you liked this book look for the other titles in the series we are sure you will like some of the authors

the genius of aldous huxley is an attempt to make a critical analysis of aldous huxley s novels essays and plays the significant results of his stance in terms of his critical heritage were threefold the explicit message of the later fiction struck most readers as being detrimental to its artistry criticism of huxley s craft often became indistinguishable from criticism of his ideas the popular response to huxley s work continued to grow but the critical reception declined while they were looking to him for guidance practically none of huxley s readers were prepared for the directions he took in the coming books his critics had so consistently overlooked the deeper import of the earlier work that the new outspoken idealism seemed an abrupt reversal if not a contradiction of attitudes the shift of emphasis in huxley s work introduced during the war years a period of new ferment and trial for his critical reputation the volume of response never slackened if anything it increased he has revealed himself as one of the few capable makers of cultural synthesis in our time his concern for mankind is so obvious that one can only think readers who see nothing in his later fiction but obsessions and bitterness are incapable of appreciating his intentions or his powers

in the moral vacuum and world of shifting values following world war i aldous huxley was both a sensitive reflector and an articulate catalyst this work provides a highly illuminating analysis of huxley s evolution from skeptic to mystic as milton birnbaum shows in a perceptive interpretation of huxley s poetry fiction essays and biographies what evolved in huxley s moral and intellectual pilgrimage was not so much a change in direction as a shift in emphasis even in the sardonic huxley of the 1920s and 1930s there is a moral concern in the later huxley there are traces of the satirical skepticism which delighted his readers in the decades preceding world war ii a man of letters a keen observer seeker of new ways while profoundly knowledgeable in the truths of ancient wisdom huxley tried to achieve a symbiotic synthesis of the best of all worlds in clarifying and interpreting huxley s intellectual moral and philosophical development birnbaum touches upon all the subjects that came under the scrutiny of a singularly encyclopedic mind this book is of great worth

to those interested both in huxley the brilliant satirist and in huxley the seeker of salvation in his search huxley typified the modern quest for values milton birnbaum's study is an invaluable guide in that journey his new introduction takes account of research and analysis of huxley that has occurred since this book's original publication

essays analysing the decline of aldous huxley as a novelist have become a commonplace of literary criticism over the past two decades yet he continues to be read and few writers equal his ability to make moral concepts exciting to animate ideas and clothe them with life and vitality in this study of the nine major novels from crome yellow 1921 to island 1962 mr bowering offers a positive evaluation huxley's achievements as a novelist of ideas as the moralist of a scientific age and as an ironist worthy to be compared with swift he shows how the conflicting claims of morality and art must be judged in relation to huxley's work as a whole and to this search for a way of life which would fit all the facts of experience all the principle novels require some knowledge of huxley's source materials to be adequately understood and mr bowering is particularly informative on this score his discussion indeed attempts to set the novels in the widest possible area of reference
