written specifically for canadian students this practical exploration of research methods in criminology offers balanced coverage of qualitative quantitative and mixed methods preparing students to design interpret and appraise empirical research

this book assembles essays by leading scholars in their fields of criminology and socio legal studies john braithwaite john hagan jack katz nicola lacey michael levi joan mccord dario melossi steven messner and richard rosenfeld explore new directions in contemporary theorising about the impact of social and cultural dynamics on crime and social control these essays have in common that they transcend disciplinary boundaries by combining criminological and socio legal perspectives in so doing they bring fresh perspectives to the analysis of crime in market societies and in the global market place the authors do not share the apocalyptic and dramatic predictions of rising crime rates but are aware of the double movement of social

change and the counteracting forces that emerge in its course these essays promote an integrative perspective that bridges the gap between etiological criminology and a constructionist approach as well as between explanatory and normative theory

after surviving the flood noah and his family settle in a sheltered valley with the animals they have saved and begin the glorious experience of repopulating the earth

the study of how the environment local geography and physical locations influence crime has a long history that stretches across many research traditions these include the neighborhood effects approach developed in the 1920s the criminology of place and a newer approach that attends to the perception of crime in communities aided by new technologies and improved data reporting in recent decades research in environmental criminology has developed rapidly within each of these approaches yet research in the subfield remains fragmented and competing theories are rarely examined together the oxford handbook of environmental criminology takes a unique approach and synthesizes the contributions of existing methods to better integrate the subfield as a whole gerben j n bruinsma and shane d johnson have assembled a cast of top scholars to provide an in depth source for understanding how and why physical setting can influence the emergence of crime affect the environment and impact individual or group behavior the contributors address how changes in the environment global connectivity and technology provide more criminal opportunities and new ways of committing old crimes they also explore how crimes committed in countries with distinct cultural practices like china and west africa might lead to different spatial patterns of crime this is a state of the art compendium on environmental criminology that reflects the diverse research and theory developed across the western world
