seminar paper from the year 2003 in the subject business economics business management corporate governance university of phoenix language english abstract this paper answers four discussion questions concerning various electronic marketing concepts first the difference between e commerce and e business is discussed second details are given why b2b has greater potential than b2c third the concept of disintermediation is discussed and what type of business could benefit most from this concept and finally reintermediation as a concept is discussed and which type of business could benefit most from this concept

this collection compiles a critical mass of top research nearly 300 chapters from upwards of 400 of the world s leading experts to provide libraries with a landmark four volume reference to meet research needs in the many disciplines impacted by these far reaching topics this collection covers topics including mobile commerce virtual enterprises business to business applications services and enterprise methodologies provided by publisher

there has never been a e commerce guide like this it contains 232 answers much more than you can imagine comprehensive answers and extensive details and references with insights that have never before been offered in print get the information you need fast this all embracing guide offers a thorough view of key knowledge and detailed insight this guide introduces what you want to know about e commerce a quick look inside of some of the subjects covered ecommerce in india amazon services miscellaneous windows azure services ebay skype henry schein key size effect of quantum computing attacks on key strength amazon com merchant partnerships mobile commerce mobile marketing and advertising document automation in supply chain management roel pieper career in the netherlands amazon s3 mobile payment direct mobile billing online dating service development development as an industry e commerce forms privacy invasive software commercially motivated adverse software user generated content legal problems related to ugc comptia i net electronic commerce governmental regulation snapdeal partnership with ebay gameagent hard disk drive market segments e commerce timeline dash7 commercial applications green mountain coffee roasters marketing threat travel website telecommunications in iran history of information technology auditing georgia institute of technology college of computing snapdeal awards recognition word of the year american dialect society electronic business michael aldrich cloud telephony applications bibliography of tourism tourism and technology baidu services australian computer society special interest groups websites types of websites and much more

master s thesis from the year 2004 in the subject law media multimedia law copyright grade first distinction mit auszeic university of wales aberystwyth course ll m programm language english abstract this dissertation aims to assess the effectiveness and suitability of european regulation in respect to e commerce taking the european lisbon strategy as set out in 2000 as a starting point this paper examines whether europe is on the right track to becoming the most competitive and dynamic knowledge based economy by 2010 hereby the scope of this paper is limited to e commerce only as one essential part of a knowledge based economy and an e ready europe after outlining the special nature of e commerce the rationale behind regulation and the historical background of european regulation in this field this paper concentrates on four issues where the eu has become active in regulating e commerce namely the essential prerequisite of an existing e infrastructure e signatures privacy and consumer

protection the european approach to each of these issues is assessed to reveal its strengths and weaknesses moreover this european way of regulating e commerce is then compared with other regulative attempts hereby special attention is paid to the us approach to regulating e commerce which is mostly based on self regulation thus this paper comes to the conclusion that europe is on the right track to becoming e ready in respect to e commerce basic regulatory decisions have the potential to lead in the right direction although they do not always provide the most effective solution often european directives do not reach far enough and are outdated thus they do not address e commerce sufficiently give too much discretion to the member states and leave prevalent gaps or do not interoperate properly therefore the european regulation on e commerce needs some revision and has to take some brave and innovative steps to establish legal certainty as well as to create consumer trust and confidence following this path active participation can be promoted and consequently a vibrant e commerce market created
