this title confidently puts forward a practical new approach to decision making in an uncertain business world many variables are accounted for and the

authors are innovative in integrating previous types of decision making approaches with a more fluid and therefore realistic model that can be applied across a wide range of contexts and decisions a new title on a important topic that not only stands well on its own but also complements chapman and ward s previous title project risk management this book is practical and rigorous yet written in an engaging way it is perfect for courses or to be used by practitioners

these papers discuss some of the major aspects of decentralization and urban change in the context of globalization

strategy risk management and project management are often considered separately by those applying their principles but at their most effective all are dependent upon each other for success enlightened planning teaches this holistic perspective and demonstrates how a synthesis of these approaches yields far greater opportunities a strategic calculated risk for example can be less inherently risky than chronic risk aversion over time here a respected specialist and teacher demonstrates how to become an enlightened planner one that is aware of project strategy and risk concerns and their potential interplay following the core principle of keep it simple systematically he shows how organised systematic thought processes can demystify the complexities of decision making when considering a huge variety of concerns at once supported throughout with real life cases from the author s considerable experiences with commercial organisations it is also supported by a website containing even more cases learning and teaching materials this book is essential reading for any practitioner specialising in risk management project management or strategy as well as those teachers or participants in executive programmes

a weekly review of politics literature theology and art
