in the midst of the cognitive revolution there has been a veritable ex plosion of interest in topics that have been long banished from academic consideration under the intellectual hegemony of behaviorism most notably notions of self ego and identity are reasserting themselves as fundamental problems in a variety of research traditions within psychol ogy and the social sciences theoretical models review articles edited vol umes and empirical work devoted to these constructs are proliferating at a dizzying rate this clearly attests to the renascent interest in these topics the vitality of these research paradigms and the promise that these constructs hold for explaining fundamental aspects of human development and behavior although the renewed academic interest in self ego and identity is obviously an exciting and healthy development there is always the tendency for research to take on a parochial character when boundaries are erected among different theoretical perspectives when empirical findings are viewed in isolation when theories are too sharply delimited and segre gated from other domains of behavior then what may seem like progres sive healthy and content increasing tendencies in a research paradigm may turn out to be on closer inspection merely an inchoate thrashing about fortunately there is an internal dynamic to scientific investigation that tends to combat this degenerating tendency there is something about the rhythm of science that bids us to transcend parochial theoretical in terests and seek the most general theory

erik h erikson s remarkable insights into the relationship of life history and history began with observations on a central stage of life identity development in adolescence this book collects three early papers that along with childhood and society many consider the best introduction to erikson s theories ego development and historical change is a selection of extensive notes in which erikson first undertook to relate to each other observations on groups studied on field trips and on children studied longitudinally and clinically these notes are representative of the source material used for childhood and society growth and crises of the health personality takes erikson beyond adolescence into the critical stages of the whole life cycle in the third and last essay erikson deals with the problem of ego identity successively from biographical clinical and social points of view all dimensions later pursued separately in his work
