the half blood half indian half white is a frequent figure in the popular fiction of nineteenth century america for he or sometimes she served to symbolize many of the conflicting cultural values with which american society was then wrestling in literature as in real life the half blood was a product of the frontier embodying the conflict between wilderness and civilization that haunted and stirred the american imagination what was his identity was he indeed half indian half white and half devil or a bright link between the races from which would emerge a new american prototype in this important first study of the fictional half blood william j scheick examines works ranging from the enormously popular dime novels and the short fiction of such writers as bret harte to the more sophisticated works of irving cooper poe hawthorne and others he discovers that ambivalence characterized nearly all who wrote of the half blood some writers found racial mixing abhorrent while others saw more benign possibilities the use of a half blood in spirit a character of untainted blood who joined the virtues of the two races in his manner of life was one ingenious literary

strategy adopted by a number of writers scheick also compares the literary portrayal of the half blood with the nineteenth century view of the mulatto this pioneering examination of an important symbol in popular literature of the last century opens up a previously unexplored repository of attitudes toward american civilization an important book for all those concerned with the course of american culture and literature
