sufism is a journey a miraculous one filled with hurdles yet easy for those who are born pure and those who choose it is the choices and not always the actions as they could be deceptive sufism is the spiritual and mystical aspect of islam the esoteric cosmos has every spiritual blessing notion and

this important academic work is the necessary fruit of our academic efforts which we have been carrying out for nearly 10 years to revise the four main books of the risāla i nūr collection the words the rays the flashes and the letters of bedīuzzaman and to explain important academic terms with glosses the first two of these works are now in print and have attracted considerable interest in scholarly circles upon requests we have found it appropriate to publish these terms which are essential for the understanding of the risāla i nūr collection as a separate book

thus during that period of oppression when under the name of secularization those in power were seeking the virtual eradication of islām and islāmic culture and their substitution by irreligion and materialist philosophy of western origin with his unequalled learning extraordinarily clear vision and foresight and his courage and his writings badī uzzaman became a point of hope and strength for the people despite the adverse conditions and efforts to isolate him in barla he began to attract students so called since he described himself as a teacher drawn by those lights of belief in that

dark time they willingly suffered the persecution and assisted him by writing out and spreading the words the writing and dissemination was another unique feature of the risāla i nūr badī uzzaman would dictate at speed to his students who acted as scribes he had no books for reference and the writing of religious works was of course forbidden they were all written therefore in the mountains and out in the countryside handwritten copies of the treatises or the letters were then made of the originals and these were conveyed to the nur students and secretly copied out in their houses these copies were passed from village to village and then from town to town with more and more copies being made on the way till eventually they spread throughout turkey travel was not easy and badī uzzaman communicated by letter with those of his students who lived in towns and villages other than barla largely in reply to their questions the letters offer important guidance on numerous points of belief and islām explained in the light of the risāla i nūr and its way and in the face of the misguidance of the times indeed they form an important source and authority on many subjects for muslims today since some of his students had previously been attached to sufi orders he sometimes explains the way of the risāla i nūr to them through comparisons with the sufi way the primary aim of the risāla i nūr is the saving and strengthening of belief employing both the intellect and the heart badī uzzaman described it as reality ḥaqīqah and shari a rather than ṭarīqah that is sufism it is the highway of the qur an which teaches the true affirmation of divine unity true and certain belief attained in a short time through investigation and the exercise of the reason the direct way to reality and knowledge of allah which is the way of the companions of prophet uwp through the legacy of prophethood some of the letters offer guidance and encouragement to the students by answering criticisms and misrepresentations put forward by those antithetical to religion concerning both points of islām and badī uzzaman himself others expose the plans to corrupt islām through the introduction of innovations they show how on the one hand badī uzzaman was absolutely uncompromising in the face of enemies to religion and on the other his complete fairness and moderateness in adjudicating points of conflict and controversy within islām all these illustrate his profound knowledge of many subjects as well as the clarity and power of his style which is based on logic

the words is the first volume of the risale i nur and consists of thirty three independent parts or words which explain and prove aspects of the fundamental matters of belief these consist of such matters as god s existence and unity the manifestation of the divine names and attributes in creation the resurrection of the dead and the hereafter prophethood the miraculousness of the qur an the angels the immortality of man s spirit divine determining fate or destiny together with such questions as the true nature of man and the universe and man s need to worship god each subject is explained with comparisons and allegories and demonstrated with reasoned arguments and logical proofs the most profound aspects of the truths of belief which were formerly studied only by advanced scholars are explained in such a way that everyone even those to whom the subject is new may understand without difficulty this work answers brilliantly the attacks made on the qur an in the name of science and philosophy and demonstrates the rationality of belief in god and logical absurdity of denial it shows too that man s happiness and salvation both in this world and the next lie only in belief in god and knowledge of god
