increasingly landscape planning requires an understanding of how the landscape functions marsh s book provides a unique integration of landscape architecture forestry ecology and geography this fourth edition incorporates the rapid expansions taking place in the field it addresses several topics of concern in both public and private sectors such as flooding wetlands species conservation and groundwater readers will also discover how physical geography planning and landscape architecture relate to environmental problems and issues an overview of environmental topics as applied to development land use and environmental problems of the landscape focuses on landscape processes systems forms and analysis places greater emphasis on urban environments and site scale problems arms the reader with a collection of best management practices which can be applied in the field presents updated case studies that examine planning and design problems

contributes to applied cost benefit analysis cba and other evaluation methods in the context of the regional policy of the european union this book states that through the use of structural funds and other financial and regulatory mechanisms the eu can help to promote thousands of infrastructure projects

tourism impacts planning and management is a unique text which links these three crucial areas of tourism impacts planning and management tourism impacts are multi faceted and therefore are difficult to plan for and manage this title looks at all the key players involved be they tourists host communities or industry members and considers a number of approaches and techniques for managing tourism impacts successfully now in a third edition this bestselling text has been fully revised to include new material on terrorism sustainability climate change sex tourism heritage tourism theories of tourism planning and gis new chapter on destination planning and management updated tourism data and statistics case studies on urban tourism pro poor tourism cruise ship tourism coral reef tourism historic monuments eco labels codes of conduct and sustainable tourism from both developed and developing regions including australia iceland spain the uk namibia the arctic and antarctica a companion website including ppts video and web links the text is written in an accessible style and includes a plethora of features that engage and aid understanding this accessible yet academically rigorous introduction to tourism impacts planning and management is essential reading for all tourism students

in the decades following the first earth day in 1970 a generation has been enlightened about the unspeakable damage done to our planet federal state and local governments generated laws and regulations to control development and protect the environment local governments have developed environmental standards addressing their needs the result an ecologically incongruous pattern of land development known as urban sprawl local land use planners can have a greater effect on the quality of our environment than all of the federal and state regulators combined historically they have existed on the periphery of land management the author suggests that federal and state environmental regulators need to incorporate local governments into their environmental protection plans ecologically based municipal land use planning provides easily understood nuts and bolts solutions for controlling urban sprawl emphasizing the integration of federal state and local land use plans the book discusses ecological resources and provides practical solutions that municipal planners can implement immediately it discusses the most recent scientific data how to extract what is important and how to apply it to the local land planning process the author includes the application of the geographic information systems gis to problem solving despite compelling evidence and sound arguments favoring the implementation of an ecologically sensitive approach to land use planning municipal planners in general remain skeptical it will take considerably more encouragement and education to win them over completely ecologically based municipal land use planning makes the case for sound land use policies that will reduce sprawl

the third volume in a magisterial five volume study of the political economy of american warfare

environmental planning and sustainability edited by susan buckingham hatfield brunel university college london and bob evans south bank university

london environmental planning and sustainability critically assesses the concept of sustainability and the way in which it is used as a basis for environmental planning the book which brings together authors from a wide range of professions and academic disciplines argues that national environmental planning is reactive and ad hoc and calls for a wider ranging refocusing of environmental planning based on reliable and consistent data collection equitable public participation and a well debated understanding of sustainability it also argues that the challenge offered by the united nations through its agenda 21 programme and by european policies should result in a re think not only about how we plan to achieve environmental sustainability but also about the contexts in which we should do so offering a wide range of perspectives on the notion of sustainability and how we should go about achieving it through environmental planning this book makes essential reading for students lecturers and researchers in environmental policy and planning human geography policy studies environmental studies and town planning and for policy makers and practitioners in the field of environmental planning

based on a symposium organized by the environmental conservation education division of the soil conservation society of america and presented during the society s 28th annual meeting in 1973

to understand the environmental movement is to understand environmental organizations and no one better understands this than bosso his book is both important and timely jeffrey m berry author of the new liberalism the rising power of citizen groups a must read for anyone interested in the future of our environment frank r baumgartner coauthor of basic interests the importance of groups in politics and in political science an important engaging and well written book that s ideal for courses in environmental politics robert j duffy author of the green agenda in american politics new strategies for the twenty first century a masterful study that fills a critical void in the field michael e kraft author of environmental policy and politics publisher
