the election of donald trump was a shattering moment to the political sensibilities of america immediately sending the country into a frenzy of commentary critique and a never ending media coverage that has bordered on the absurd but the question still remains what does it all mean the meaning of trump is an ideological critique that sees the election of donald trump as a completely natural progression to the general trajectory of digitized technologies neoliberalism and a new breed of financialized capitalism destructive global forces that know no party affiliation or national boundary although donald trump is undoubtedly the symptom that has exploded to the surface after nearly four decades of failed policies and broken promises by both republicans and democrats alike his election can also be seen as an existential fork in the road for both the united states and even humanity itself what path is taken still remains to be seen

this book tells the stories of twenty five women from the dawn of civilization to the present day who bent the arc of history by what they did at the defining moment in their lives at this critical juncture they had a choice taking the safe or least risky option or challenging the status quo they wielded the sword seized political power or challenged societal norms and laws and transformed society contrary to all cultural dictates some women were virtual saints others were more ruthless than any man of their age one even instituted the first police state in history these women all faced enormous odds the social norms of their time were so pervasive and insular that every touchpoint in society bullied them as social media bullies women today especially those who dare to be different not for difference sake but to make a difference in their brief time on this planet to the woman they responded to challenges setbacks and disappointments by redoubling their efforts we can learn from and be inspired by their lives and their grit and their mistakes to read their stories is to see ourselves anew

yahweh the lord god and his son yahshuah jesus christ made statements with regard to eschatology that have been spiritualized for over a millennium which has led to the belief in universalism the belief that yahshuah died for everyone well after one studies the original languages of the hebrew aramaic and greek the message of the kingdom of god was preached to and accepted by a certain house in the bible the other house rejected this message and yahshuah punished that house by taking the kingdom away from them and giving it to another nation bringing forth fruit there are only the house of israel the house of judah and the house of david mentioned in the bible all three existed then as they do today however most of today's babylonian priesthood churchianity refuses to accept the secular historical position with regard to the house of israel and who they are today the people groups which yahweh and yahshuah addressed still exist today however these people are all mixed up and known by different names but they do exist this book goes back to the origin of these people groups in the bible and brings them forward to the present using their old names in order to understand eschatology this brings us to the major question of is the bible only about israel and if so how does it affect our eschatology today this book answers these hard questions

in recent history men from a variety of backgrounds have come to the same conclusion that the bible is about israel only for example in 1861 john mason neale translated an ancient twelfth century latin hymn and its title was o come o come emmanuel ever since 1861 christians have sung that hymn at christmas time especially at advent do you know what the words really mean that you are singing in 1878 edward hine wrote an article titled seven eighths of the bible misunderstood wherein he explains that seven eighths of the bible is about national salvation i.e. the national salvation of true israel whereas only one eighth of the bible is about personal salvation did you know that in the 1960's pastor sheldon emry wrote an article titled an open letter to any minister who teaches the jews are israel wherein he is of the opinion that the israel that exists today since 1948 is not the true israel of the bible in 1998 arnold e kennedy wrote a book titled the exclusiveness of israel wherein he legally proves using the king james version of the bible that the bible in general is only about true israel so here we are in the twenty first century and the gospel that is preached today is totally convoluted

from that which was preached in the first century a d by yahshuah and his disciples i e the gospel of the kingdom so where did the so called churches and pastors go wrong by the way is there really a hierarchy in the bible in order to find out what the truth really is we have to look at the original languages in which the bible was written and then translated for example the old testament was written in hebrew and aramaic then translated into greek the new testament was written in hebrew and greek both testaments were put together and translated into latin then german and finally into english from which the entire world received their own translation of the bible so what was the original meaning of the words used in the original languages i e the etymology of the words once that is determined then we can go onto the next phase and discuss types in the bible from there what is the law of first mention how should bible prophecy be interpreted who are the keys to bible prophecy where are we in the bible prophecy timeline during these discussions we will find out who yahweh chose of all the families of the earth to make his own the churches teach universalism the question then becomes who was yahweh s law given to what are the laws of yahweh and then the even bigger question becomes who was yahshuah sent to all of these questions and more will be answered as you read this book
