accounting for managers explains how accounting information is used by non financial managers the book emphasises the interpretation rather than the construction of accounting information and encourages a critical rather than unthinking acceptance of the underlying assumptions behind accounting it links theory with practical examples and case studies drawn from real life business situations in service retail and manufacturing industries

a financial times best book of 2024 the world renowned economist offers a ground breaking new vision for inclusive prosperity left behind places can be found in prosperous countries from south yorkshire integral to the industrial revolution and now england s poorest county to barranquilla once colombia s portal to the caribbean and now struggling more alarmingly the poorest countries in the world are diverging further from the rest of humanity than they were at the start of this century why have these places fallen behind and what can we do about it world renowned development economist paul collier has spent his life working in neglected communities in this book he offers his candid diagnosis of why some regions and countries are failing and a new vision for how they can catch up collier lays the blame for widening inequality on stale economic orthodoxies that prioritize market forces to revive left behind regions and on the arrogant hands off and one size fits all approach of centralized bureaucracies like the uk treasury as a result collier argues the uk has become the most unequal and unfair society in the western world yet the core message of left behind is hopeful bringing together encouraging case studies of recovery from around the world collier shows how renewal is achievable through a combination of collective learning moral leadership and local agency with keen insight he draws lessons from such seemingly disparate fields as behavioural psychology evolutionary biology and moral philosophy to

share a bold galvanizing vision for a more inclusive prosperous world

featured in bill gates s 2019 summer reading recommendations from world renowned economist paul collier a candid diagnosis of the failures of capitalism and a pragmatic and realistic vision for how we can repair it deep new rifts are tearing apart the fabric of britain and other western societies thriving cities versus the provinces the highly skilled elite versus the less educated wealthy versus developing countries as these divides deepen we have lost the sense of ethical obligation to others that was crucial to the rise of post war social democracy so far these rifts have been answered only by the revivalist ideologies of populism and socialism leading to the seismic upheavals of trump brexit and the return of the far right in germany we have heard many critiques of capitalism but no one has laid out a realistic way to fix it until now in a passionate and polemical book celebrated economist paul collier outlines brilliantly original and ethical ways of healing these rifts economic social and cultural with the cool head of pragmatism rather than the fervour of ideological revivalism he reveals how he has personally lived across these three divides moving from working class sheffield to hyper competitive oxford and working between britain and africa and acknowledges some of the failings of his profession drawing on his own solutions as well as ideas from some of the world s most distinguished social scientists he shows us how to save capitalism from itself and free ourselves from the intellectual baggage of the 20th century

mass international migration is a response to extreme global inequality and immigration has a profound impact on the way we live yet our views and those of our politicians remain caught between two extremes popular hostility to migrants tinged by xenophobia and racism and the view of business and liberal elites that open doors are both economically and ethically imperative with migration set to accelerate few issues are so urgently in need of dispassionate analysis and few are more incendiary here

world renowned economist paul collier seeks to defuse this explosive subject exodus looks at how people from the world's poorest societies struggle to migrate to the rich west the effects on those left behind and on the host societies and explores the impulses and thinking that inform western immigration policy migration he concludes is a fact and we urgently need to think clearly about its possibilities and challenges it is not a question of whether migration is good or bad but how much is best paul collier is professor of economics and director of the centre for the study of african economies at oxford university and a former director of development research at the world bank he is the author of among others the award winning the bottom billion and the plundered planet exodus is an important book and one i have been waiting to read for many years it is a work that is humane and hard headed about one of the greatest issues of our times david goodhart sunday times paul collier is one of the world's most thoughtful economists his books consistently illuminate and provoke exodus is no exception the economist tinged with poignancy a humane and sensible voice in a highly toxic debate colin kidd guardian paul collier's new book on international migration is magisterial it offers a sophisticated comprehensive incisive multidisciplinary well written balance sheet of the pros and cons of immigration for receiving societies sending societies and migrants themselves for everyone on all sides of this contentious issue exodus is a must read robert d putnam professor of public policy john f kennedy school of government harvard university praise for paul collier's the plundered planet a must read sunday times a path breaking book george soros paul collier must be read if one is to begin to understand the most vital contemporary arguments bob geldof

paul collier's contributions to development economics and in regard to africa in particular have marked him out as one of the most influential commentators of recent times his research has centred upon the causes and consequences of civil war the effects of aid and the problems of democracy in low income

and natural resource rich societies his work has also enjoyed substantial policy impact having seen him sit as a senior adviser to tony blair s commission on africa and addressed the general assembly of the united nations this collection of collier s major writings with assistance from anke hoeffler and jan gunning and accompanied by a new introduction provide the definitive account of a wide range of macroeconomic microeconomic and political economy topics concerned with africa within macroeconomics there is a focus on external shocks exchange rate and trade policies whilst microeconomic topics focus upon labour and financial markets as well as rural development collier s book the bottom billion had become a landmark book and this summation of the research underpinning it will be a superb guide for all those concerned with african development
