as provider networks on military bases are overwhelmed with new cases civilian clinicians are increasingly likely to treat military families however these clinicians do not receive the same military mental healthcare training as providers on military installations adding strain to clinicians workloads and creating gaps in levels of treatment families under fire fills these gaps with real world examples clear concise prose and nuts and bolts approaches for working with military families utilizing a systems based practice that is effective regardless of branch of service or the practitioner's therapeutic preference any civilian mental health practitioner who wants to understand the diverse needs of military personnel their spouses and their families will rely on this indispensable guidebook for years to come

the systemic cybernetic framework in family therapy provides a framework for understanding people and families in context the text divided into three sections including the systemic framework the practice of family therapy and the systemic practitioner includes historical information current developments and ongoing debates book jacket

abnormal child and adolescent psychology with dsm 5 updates 8 e presents students with a comprehensive research based introduction to understanding child and adolescent psychopathology the authors provide a logically formatted and easy to understand text that covers the central issues and theoretical and methodological foundations of childhood behavior disorders rich with illustrations and examples this text highlights the newest areas of research and clinical work stressing supported treatments and the prevention of behavior problems of youth

over the past two decades violent crime has become one of the most serious domestic problems in the united states approximately 13 million people nearly 5 of the u s population are victims of crime every year and of that approximately one and a half million are victims of violent crime ensuring quality of life for victims of crime is therefore a major challenge facing policy makers and mental health providers helping victims of violent crime grounds victim assistance treatments in a victim centered and strengths perspective the book explores victim assistance through systems theory the holistic notion of examining the client in his her environment and a key theoretical underpinning of social work practice the basic assumption of systems theory is homeostasis a crime event causes a change in homeostasis and often results in disequilibrium the victim's focus at this point is to regain equilibrium under the systems metatheory coping crisis and attribution theories provide a good framework for victim centered intervention stress and coping theories posit that three factors determine the state of balance perception of the event available situational support and coping mechanisms crisis theory offers a framework to understand a victim's response to a crime the basic assumption of crisis theory asserts that when a crisis occurs people respond with a fairly predictable physical and emotional pattern the

intensity and manifestation of this pattern may vary from individual to individual finally attribution theory asserts that individuals make cognitive appraisals of a stressful situation in both positive and negative ways these appraisals are based on the individual's assertion that they can understand predict and control circumstances and result in the victim's assignment of responsibility for solving or helping with problems that have arisen from the crime event in summary these four theories can delineate a definitive model for approach to the victimization process it is from this theoretical framework that treating victims of violent crime offers assessments and interventions with a fuller understanding of the victimization recovery process the book includes analysis of victims of family violence child abuse elder abuse partner violence as well as stranger violence sexual assault homicide and terrorism

how do economic stresses on the family such as dual earner parents unemployment and poverty affect the human service professional's assessment of the families he or she serves the field of family sociology is now providing a wealth of empirical relevant knowledge on the impact of macroeconomic issues on the families most frequently helped by social workers new approaches to family practice takes current research driven by the family systems theoretical framework and applies it to human services direct practice with families in three specific areas employed work and family work unemployment and poverty to illustrate the linkages from research to practice the book presents chapters on the theory and research in each of the three target areas each followed by a chapter on application and tools for direct practice in that area individual chapters include case studies assessment tools multilevel interventions and evaluations and strategies for social change in addition to being a rich resource for the human services professional who works with families this book is ideal for courses in social work with the family social work and human services family studies and clinical counseling psychology

this volume demonstrates the diversity of family theory from the more traditional approaches of sociology and social psychology to more controversial ones from feminist theory world systems theory and hermeneutics the international contributors come from a variety of disciplines and frame their theoretical arguments around concrete issues including religion and the family family power and men in families they have provided a provocative and informative read
