suitable for a wide range of early years and childcare qualifications this new edition of tina bruce s classic text will help build students practical skills by drawing on the history of early years and the most recent educational theories now in its 5th edition this trusted resource written by experienced and respected childcare author tina bruce has been updated to include the most recent theories and research including new studies on language acquisition attachment theory and self regulation early childhood education 5th edition is the perfect textbook for a wide range of early years and childcare qualifications including ba hons in early years education and early childhood studies pgces and foundation degrees gives a detailed overview of education principles in early childhood all outlined in tina bruce s clear writing style uses case studies to help learners understand how theories apply in real world settings supported by highly illustrative photographs showing the key aspects of practice

this book focuses on early childhood education which spans the human life from birth to age 8 infants and toddlers experience life more holistically than any other age group social emotional cognitive language and physical lessons are not learned separately by very young children adults who are most helpful to young children interact in ways that understand that the child is learning from the whole experience not just that part of the experience to which the adult gives attention although early childhood education does not have to occur in the absence of the parent or primary caregiver this term is sometimes used to denote education by someone other than these the parent or primary caregiver both research in the field and early childhood educators view the parents as an integral part of the early childhood education process early childhood education takes many forms depending on the theoretical and educational beliefs of the educator or parent other terms that is often used interchangeably with early childhood education are early childhood learning early care and early education much of the first two years of life are spent in the creation of a child s first sense of self or the building of a first identity because this is a crucial part of children s makeup how they first see themselves how they think they should function how they expect others to

function in relation to them early care must ensure that in addition to carefully selected and trained caregivers links with family home culture and home language are a central part of program policy if care becomes a substitute for rather than a support of family children may develop a less than positive sense of who they are and where they come from because of their child care experience

a much needed book that uniquely brings together policy and practice in early childhood education and care across the united kingdom and the republic of ireland it offers a wealth of information and useful websites and addresses so that importantly readers can keep abreast of the rapidly changing external environment in these countries an essential read for those wishing to understand the background to policy and practice in early childhood education and care linda miller the open university this book is long overdue it provides effective cameos of developments in each country highlighting key legislation the underlying philosophy the formation of policies and thier implementation in state voluntary and private provision the international journal of early childhood this unique resource will be invaluable in helping students and others trying to understand the context of current early years provision the case studies bring the book to life and ground it in the stories of real children and their families they highlight how the similarities and differences in support for children and their families are more dependent on where they live than what they need lesley staggs early childhood education and care policy has an impact on the daily lives of early years practitioners and the families and children they work with and practising and trainee early childhood professionals need to have an understanding of current policy as well as the contexts for policy making and implementation currently the majority of textbooks for early years education and early childhood students in the uk focus on the situation in england as a result readers may have a skewed perspective on policy and practice and not be aware of the varying and different contexts in northern ireland scotland and wales also those working in settings not in england have to work hard to apply texts to their own contexts in contrast this book gives the reader easy access to information on the policies and practices in ecec across each of the countries in the uk and the republic of ireland each chapter covers o background information o policy and practice in early childhood education and care o transition o schooling and curriculum o quality assurance examination and inspection o professional development and training o future and imminent changes o case studies of children s lives in addition to describing the legislative political and practical situation in each country the book enables comparisons to be drawn and helps readers interpret the data critically it will be essential reading for modules on comparative education and international perspectives but will also form a foundation for all modules involving policy and provision on early years education early childhood or childhood studies

courses practitioners undertaking cpd modules or foundation degrees and international students looking for comparative data will also find the book useful

this work designed to be used as a basic textbook for student teachers taking b ed and pgce initial training courses provides an accessible but rigorous treatment of early childhood education integrating ideas and practice acts as a springboard for students further study arose out of the concerns and needs expressed by students themselves and has been written from a well known centre for early childhood studies practitioner examples are included throughout together with selected readings

an introduction to early childhood studies is a comprehensive text that has been designed to provide students with an introduction to the main theories and issues within the field of early childhood studies the book adopts a multi disciplinary approach and pulls together all the key themes involved in the study of young children and childhood written by a team of leading academics and practitioners this is a lively and engaging text that will be a core text for all those involved in the study of childhood

this accessible introduction to the history of early childhood education emphasises the role of history and philosophy in early childhood practice today firmly grounded in current policy from across the uk the text features a series of imagined conversations with key figures and pioneers which exemplify various philosophical positions in early childhood this second edition has been fully updated and revised in line with recent policy changes and contains new and updated biographies of key pioneers as well as three brand new conversations with historical figures the book is useful for a range of students of early childhood education or history of education from first year undergraduates to phd students it will also be incredibly valuable to early years trainee teachers practitioners and policy makers

early childhood education and child care are now widely perceived to be among the central social needs of the nation used by more than 100 universities and colleges the new second edition of this anthology is a collection of over 70 articles which together provide a comprehensive overview of the early childhood situation from a historical theoretical and practical perspective these articles enable the reader to understand human development in young children identify their intellectual strengths and weaknesses and develop the most effective

teaching techniques also included is a review of events and conditions resulting in current educational practices classroom theory and techniques are examined not only within the u s but also run the gamut from the israeli kibbutz program to current teaching practices in the soviet union and china contents national and historical perspectives philosophical and theoretical issues critical issues exceptional children curri

covering all routes to early years teaching this essential textbook provides students and practitioners with everything they need to know to deliver outstanding early years practice previously titled achieving early years professional status this new edition is completely revised to include recent research and practice guidance for those studying early years teacher status teach first early years early years educator early years pgce new case studies illustrating best practice make this text highly relevant for experienced professionals teaching and leading practice in early years settings and schools and anyone interested in helping early years children learn and develop denise reardon dilys wilson and dymrna fox reed will be discussing ideas from early years teaching and learning in doing your early years research project a sage masterclass for early years students and practitioners in collaboration with kathy brodie

by examining how young children develop and learn from conception through to the age of eight this book explores ways to enhance professional practice in the early years for further discussion and engagement with current issues and hot topics in early childhood subscribe to sheila nutkin s author blog

introduction to early childhood education provides current and future educators with a highly readable comprehensive overview of the field the underlying philosophy of the book is that early childhood educators most important task is to provide a program that is sensitive to and supports the development of young children author eva l essa and new co author melissa burnham provide valuable insight by strategically dividing the book into six sections that answer the what who why where and how of early childhood education utilizing both naeyc national association for the education of young children and dap developmentally appropriate practice standards this supportive text provides readers with the skills theories and best practices needed to succeed and thrive as early childhood educators

essentials of early childhood education remains one of the most revered texts in the field the text emphasizes the importance of experience interactions and environments to support children in development this edition highlights up to date coverage statistics and references to new canadian studies as well as validates early childhood education as a critical and meaningful vocation essentials of early childhood education will provide students with the foundations necessary to study further in their field and achieve success in their field placements and practicum the book focuses on issues that must be addressed to prepare individuals to work with young children and families in early development stages

probing the shortcomings of contemporary early years provision whilst offering practical and informed solutions early childhood education redefined at once celebrates the progress made in this field since the publication of the start right report 1994 whilst also calling for further changes to ensure that all children are able to start right to become effective independent learners developing and emphasising the importance of concepts which have become overlooked within modern educational policy and practice yet which remain key to our children s development this book considers how elements such as attachment and love movement and exercise and language and talk may be better integrated into early years practice via the three main vectors of parenting the curriculum and pedagogy from a revised curriculum from birth to seven renamed key stage 1 to a greater emphasis on formative assessment and the promotion of pedagogies including purposeful play planning in the moment and attachment theory chapters build on the principles set out in the start right report and take into consideration the research and reflection developed over the last quarter of a decade reopening a vital debate and challenging governments education providers parents and professionals to re define what young children need to grow develop and learn in our contemporary society this timely response to the start right report is essential reading for all those involved in early years research education and care

provision of education for children under five has recently become a political concern at the same time this relatively small field has been attracting increased research attention with many early years practitioners seeking routes to initial and higher degrees this book offers essential guidance for researchers and newcomers to the field outlining opportunities in research as well as useful sensitive and appropriate methods for researching childhood education

there is a growing interest in understanding how early years care and education is organised and experienced internationally this book examines key influential approaches to early years care as well as some less well known systems from around the world in particular the book aims to inform those studying early years about perspectives in other countries encourage critical thinking about issues influences and the complexities of early years provision around the world promote critical reflection on students own provision and the current context of that provision each chapter provides an overview of early years provision and explores historical and current influences in context as well as offering insights into daily life through short vignettes longer case studies and commentary from practitioners whilst many approaches such as Reggio Emilia Te Whāriki and Head Start are widely admired it is important for reflective practitioners to understand the motivation which gave rise to these influential approaches in their original context additionally broadening understanding through information on less widely known systems the book provides students with a good grounding in the international context of early years the provenance of different early years approaches and principles and the influences on their own countries provision written in a straightforward and accessible style the book is designed to meet the needs of students studying modules related to international perspectives on a range of foundation bachelor and master s degrees in early years contributors Verity Campbell Barr Federica Caruso Carmen Dalli Rebecca Carter Dillon Annie Davy Chandrika Devarakonda Alena Držalová Hasina Banu Ebrahim Susan Edwards Dora Ho Valerie Huggins Anne Hunt Kerstin Kööp Éva Kovácsné Bakoski Caroline Leeson Beth Marshall Nancy Mcdermott Julia Morgan Joce Nuttall Elin Eriksen Ødegaard Philip Selbie Paolo Sorzio Manabu Sumida Keang Ieng Peggy Vong Karen Wickett the book rightly challenges common assumptions about the value of western perspectives of ECEC and skilfully enables the reader to recognize the various social political and economic drivers and processes that have shaped early years pedagogy on a global level Dr Janet Rose Early Years Education Award Leader Bath Spa University UK given the ever increasing interest and importance of global early childhood education and care this critically informed book offers valuable and challenging internationalised comparative arguments for students and academics at all levels Dr Guy Roberts Holmes Senior Lecturer Early Years and Primary Education Department University of London UK

Tina Bruce is one of the foremost figures thinking and writing about early years education at the moment I present Early Childhood Education to my students as a modern classic Fran Paffard University of Cumbria Early Childhood Education 4th edition is the new edition of the classic early years textbook by Tina Bruce the book draws on the history of early years pioneering educators and classic educational theories and
