the topic of urban life and the ambient in smart cities learning cities and future cities is a timely one fitting as it does in the world today by responding in an interdisciplinary way across many areas of research and practice it is essential for researchers to think about and engage with the notion of flourishing in increasingly challenging environments in smarter ways urban life and the ambient in smart cities learning cities and future cities expands upon explorations of urban life to the ambient as such perspectives are offered in this work on urban life in the context of smart cities learning cities and future cities enriched by understandings of the ambient infusing the interactions of people and technologies in 21st century environments with increased awareness at the moment covering topics such as ambient learning smart homes and extended realities this premier reference work is an essential resource for students and educators of higher education architects urban planners instructional designers sociologists city officials community leaders librarians researchers and academicians

this excellent new edition continues the legacy of the previous ten editions of sports in society combining the original

structure with new material the authors introduce research and discussion which encompasses a global view of the sociology of sport the sociology of sport is a sub discipline of sociology that studies sports as part of social and cultural life sensitive topics such as religion have been integrated throughout the text to provide a holistic view of society drawing on a number of contemporary issues terms and debates in sports the authors use a range of specific cases to bring theory to life

modern day and technology rich environments require a reconceptualization of how the nature of technology influences urban areas rethinking the way we apply these technologies will not only alter the way people communicate and interact but it will also alter how individuals learn and explore the world around them ambient urbanities as the intersection between the iot and the iop in smart cities offers insights about the ambient in 21st century smart cities learning cities responsive cities and future cities and highlights the importance of people as critical to the urban fabric of smart cities that are increasingly embedded with pervasive and often invisible technologies the book based on an urban research study explores urbanity from multiple perspectives ranging from the cultural to the geographic while highlighting topics including digital literacies smarter governance and information architectures this book is ideally designed for students educators researchers the business community city government staff and officials urban practitioners and those concerned with contemporary and emerging complex urban challenges and opportunities

a collection of essays representing arguments pro and con

this edited book considers the main issues and controversies within the current educational context of inclusive education from an international perspective authorities in the field such as norwich kauffman and boyle amongst many other international scholars provide an enticing insight into many of the issues and controversies around inclusive education and whether it is achievable or not we have reached a point in time where inclusive education has been the prevailing doctrine for universal education policies however there are still many challenges facing those working within the inclusive education space with some countries actually becoming less inclusive international and national legislation has continued to move towards inclusive education yet there seems to be many gaps between the philosophy and the principles of inclusive education and systemic practice the book aims to address the current debates surrounding the implementation of inclusive

education and also offers insights into the inconsistencies between policies and practices in inclusive environments moreover it analyzes contemporary research evidence on the effectiveness of inclusion and identify directions for future research contributors are kelly ann allen dimitris anastasiou joanna anderson adrian ashman jeanmarie badar christopher boyle jonathan m campbell heather craig leire darretxe julian elliot zuriñe gaintza betty a hallenbeck divya jindal snape marguerite jones james m kauffman george koutsouris fraser lauchlan gerry mac ruairc sofia mavropoulou daniel mays brahm norwich angela page kirsten s railey and federico r waitoller

topless bars casino gambling needle exchange programs for drug addicts there s no question morality issues remain front and center in urban politics presenting a systematic analysis of culture war issues at the local level elaine sharp shows how american cities deal with these ongoing concerns drawing on a sample of ten strategically chosen cities she explains differences in how municipalities respond to controversies surrounding sex business abortion clinics legalized gambling gay rights and drug use by analyzing the relative importance of subculture economics and institutional arrangements in the disputes she points the way toward richer and more complete understanding of how different cities respond differently to these hot button issues far more than a statistical study morality politics in american cities is a collection of fascinating stories of real people grappling with down to earth issues and real life drama richly informative case studies that will captivate students and interested citizens alike mayors public health directors activists and others speak their minds about the pros and cons of these controversies here are officials in one city confronting the vatican over funding for abortion services those in another battling a local university over its refusal to provide health benefits to gay partners of faculty members and still others mounting a massive community sponsored attack on topless clubs these stories provide detailed evidence to support classifications needed for comparing cities experience with each of the five morality issues they also

corroborate inferences drawn from the comparisons by showing what considerations were in play as local officials grappled with these issues overall the study shows that cultural factors usually dominate policymaking in local politics except when specific economic interests are at stake and also observes that county level governments are more important than previously thought in terms of morality issue decisions as provocative as it is informative morality politics in american cities demonstrates that such issues same sex marriage for example are multidimensional and often difficult to resolve its conclusions however contingent mark an important step in the ongoing process of understanding important differences in approaches to these issues and clearly show how moral conflicts continue to define american politics

this groundbreaking one volume a to z reference features 120 150 entries that explore the nexus of politics and science both in the united states and in u s interactions with other nations

this collection offers alternative explanations of local actions with a focus on conflict it features examples of experiences selected from various cities it examines how the responses of local governments to specific issues are influenced by such factors as political culture and intitutions

includes decisions of the supreme court and various intermediate and lower courts of record may aug 1888 sept dec 1895 superior court of new york city mar apr 1926 dec 1937 jan 1938 court of appeals
