in his deeply penetrating and educational book *Bloodshed Before Birth* America's choice, *Mallard the Guy Jr.* sets out to prove to the world that a fetus is a life and taking that life through abortion is murder though abortion has always been a controversial topic. *Mallard's* extensive research brings a new viewpoint to the table with faith-based reasoning, biblical references, an examination of the infamous *Roe v. Wade* case, and hard science. *Mallard's* writing will truly make even the most hard and fast pro-choice advocate think about the injustice involved in this issue by persuading the misinformed and uninformed with his logical reasoning. Millions of Americans can soon call themselves pro-life and once all the evidence has been presented, *Mallard* calls those who haven't spoken on this issue to come to action without a voice against abortion. It can never be stopped unless those who are silent join with those already actively opposing abortion. We will be outnumbered further. Our acceptance of legalized abortion has placed us on a downward path toward more legalized murders. Now is the time to take a stand for the sanctity of all human life. Especially the lives of unborn children are you going to stand up?
