traveling india in the age of gandhi is a study of armchair travel writers who journeyed to india during what has often been termed the age of gandhi placed between 1914 1948 most of the travel writers surveyed understood this era to be a unique time in world history in india and elsewhere on the globe the lingering trauma of world war i the rise of radical state ideologies in russia italy japan and germany world wide depression in the 1930s along with a host of other unsettling political cultural and technological realities revealed a world of bewildering complexity and uncertainty for many of the travel writers surveyed in this work india was the main drama in a shifting global landscape moreover many viewed it as the ultimate travel experience a journey that tested one s capacity to fully engage the earth s most compelling forms of human diversity and suffering although a few notable figures are included most of the authors in the study constitute a breed of largely forgotten travel writers this work is an attempt to extract the core of their observations impressions and conclusions concerning what they saw and experienced particularly concerning indian aspirations for independence and india as the world s most exotic human landscape

this book explains the postcolonial indian polity by presenting an alternative historical narrative of the british empire in india and india s struggle for independence it pursues this narrative along two major trajectories on the one hand it focuses on the role of imperial judicial institutions and practices in the making of both the british empire and the anti colonial movement under the congress with the lawyer as political leader on the other hand it offers a novel interpretation of gandhi s non violent resistance movement as being different from the congress it shows that the gandhian movement as the most powerful force largely responsible for india s independence was anchored not in western discourses of political and legislative freedom but rather in indic traditions of renunciative freedom with the renouncer as leader this volume offers a comprehensive and new reinterpretation of the indian constitution in the light of this historical narrative the book contends that the british colonial idea of justice and the gandhian ethos of resistance have been the two competing and conflicting driving forces that have determined the nature and evolution of the indian polity after independence

report for 1879 1880 includes information on state railways from their beginning

this enthralling book offers a new approach to indian economic history placing trade and

mercantile activity in the region within a global framework
