in this groundbreaking volume krzysztof ziarek rethinks modern experience by bringing  
together philosophical critiques of modernity and avant garde poetry ziarek explores  
through selective readings of avant garde poetry the key aspects of the radical critique  
of experience technology everydayness event and sexual difference to that extent the  
historicity of experience is less a book about the avant garde than a critique of  
experience through the avant garde ziarek reads the avant garde in dialogue with the  
work of some of the major critics of modernity martin heidegger walter benjamin jean  
françois lyotard and luce irigaray to show how avant garde experiments bear critically  
on the issue of modern experience and its technological organization the four poets  
ziarek considers gertrude stein velimir khlebnikov miron biazoszewski and susan howe  
demonstrate the broad reach of and variety of forms taken by the avant garde revision  
of experience and aesthetics moreover this quartet illustrates how the main operative

concepts and strategies of the avant garde underpinned the practices of canonical writers a profound philosophical meditation on language modernity and the everyday the historicity of experience offers a fundamental reconceptualization of the avant garde in relation to experience

in this wide ranging and thoughtful study michael allen gillespie explores the philosophical foundation or ground of the concept of history analyzing the historical conflict between human nature and freedom he centers his discussion on hegel and heidegger but also draws on the pertinent thought of other philosophers whose contributions to the debate is crucial particularly rousseau kant and nietzsche

the holy trinity is the oldest idea of christian hope the study of being or ontology was once regarded as a seminal preparation for the study of god as the creative cause of all being in theology yet due to a series of theological mistakes metaphysics came to be separated from the trinity before god came to be conceived as the supreme being of all beings in general metaphysics natural theology and modern ontology the analytic and continental philosophical traditions have since tended to treat the trinity as at best superfluous and at worst redundant to modern formal ontologies yet the postmodern collapse of all such formal ontologies has prepared the path for a renewed study of metaphysics or ontology that shares in participation with the trinity new trinitarian ontologies names a creative response to this pivotal collapse of modern formal ontologies if ontology cannot contain but rather more radically points to god and if all nature thus tends towards the supernatural the angelic and the metaphysical then we should renew the study of the metaphysics or ontology of the trinity this volume represents a collection of responses to this challenge of rendering ontology in a trinitarian style

first published in 2003 heidegger and the study of his thought have earned wide acceptance extending beyond philosophy to influence an array of other disciplines critically selected by leading scholars in the field the articles in this new collection bring together the most essential and representative scholarship on heidegger focusing on the major phases of his work which attracted most attention from contemporary thinkers as well as exploring new and important areas of heidegger scholarship this four volume set is an invaluable resource for any curriculum supporting philosophy as

well as political theory literature classics anthropology and cultural studies
