this is a popular and dramatic short account of the doomed voyage of the titanic just before midnight on april 14 1912 the rms titanic the largest ship in the world hit an iceberg starting a chain of events that would ultimately make it history s most famous and notorious ship in the over 100 years since it sank on its maiden voyage the titanic has been the subject of endless fascination as evidenced by the efforts to find its final resting spot the museums full of its objects and the countless books documentaries and movies made about the doomed ocean liner the titanic was neither the first nor last big ship to sink so it s clear that much of its appeal stems from the nature of ship itself indeed the titanic stands out not just for its end but for its beginning specifically the fact that it was the most luxurious passenger ship ever built at the time in addition to the time it took to come up with the design the giant ship took a full three years to build and no effort or cost was spared to outfit the titanic in the most lavish ways given that the titanic was over 100 feet tall nearly 900 feet long and over 90 feet wide it s obvious that those who built her and provided all of its famous amenities had plenty of work to do the massive ship was carrying thousands of passengers and crew members each with their own experiences on board and the various amenities offered among the different classes of passengers ensured that life on some decks of the ship was

quite different than life on others thanks to the dramatization of the titanic s sinking and the undying interest in the story millions of people are familiar with various aspects of the ship s demise and the nearly 1 500 people who died in the north atlantic in the early morning hours of april 15 1912 the sinking of the ship is still nearly as controversial now as it was over 100 years ago and the drama is just as compelling

a dramatic retelling of the personal stories of the men women and children survivors of the titanic lifeboats foot by foot titanic s lifeboat no 11 slowly jerked its way down the sides of the great ocean liner as it slipped beneath the cold dark waters of the atlantic for the fifty or so men women and children crammed into the lifeboat survival was all that mattered even then though the american fashion designer edith rosenbaum russell ferociously clung to her pig shaped music box until she was rescued its tunes helping to quell the fears of the frightened children onboard unlike so many of those onboard titanic that fateful night in april 1912 everyone in lifeboat no 11 would be rescued bridget mcdermott had brought a new hat before she set off for america bridget climbed into one of the lifeboats believed to be no 13 before realising she had left her precious purchase behind she climbed out of the lifeboat retrieved her hat from her cabin ran back to the open deck and jumped fifteen feet from a rope ladder onto the lifeboat other garments played an important part in the survival of one of the lifeboats which sprung a leak with the people onboard using clothes to plug the hole charles joughin the head baker aboard titanic floated in the near freezing ocean for around two hours before being pulled out of the water onto one of the lifeboats he had not succumbed to the cold due to the amount of alcohol he had drunk masabumi hosono a civil servant from tokyo was the only japanese passenger onboard titanic and being a man he accepted that the women and children first policy had sealed his fate however when a crew member shouted that there were two spaces left in a lifeboat no 10 hosono jumped in as japanese honour considered it far better for a man to suffer an honourable death than to survive in a shameful manner when he reached his homeland he was ostracized by his family and lost his job when it sailed titanic carried twenty lifeboats that between them could accommodate 1 178 people a little over half of the 2 209 on board the night the liner sank eighteen of these life saving craft were used that night but tragically only 706 people found a space in them this is the dramatic and moving story of the men women and children who made it into the lifeboats that fateful night in april 1912

the first critical analysis of the titanic as modern myth this book focuses on the second of the two titanics the first was the physical titanic the rusting remains of which can still be found twelve thousand feet below the north atlantic the second is the mythical titanic which emerged just as its tangible predecessor slipped from view on 15 april 1912 it is the second of the two titanics which remains the more interesting and which continues to carry cultural resonances today the myth of the titanic begins with the launching of the unsinkable ship and ends with the outbreak of the war to end all wars it provides an insight into the particular culture of late edwardian britain and beyond this draws far greater conclusions about the complex relationship between myth history popular culture and society as a whole
